

# New from template

## HTML templates

You can create an email starting from one of the 400 email templates included. Choose a template based on the layout and color that fits with your company's color scheme and branding.

Each template can be:

- previewed
- modified
- selected to create a new message with the HTML editor

## My templates

In this page, you will find custom HTML templates that you've saved.

Each template can be previewed, modified, deleted or used as a starting point for a new message.

You may also create a new template by clicking the "New template" button, in the upper right corner of the page.
