

# Email to inactive recipients

The Email to inactive recipients is the main feature that allows managing inactive recipients.

Typically, you can see a 3-5% increase in subscriber re-engagement. This is a low percentage because we're talking about an already inactive audience.

To maximize your re-engagement campaign, we suggest to personalize the message (Settings > List settings > Notification messages > Inactive) and to enable the feature in the section [Inactive recipients management](#).

**Do you still want to hear from us?**

You have not shown a lot of interest in our messages lately. The last thing we want to do is bugging you with unwanted messages, so we have decided not to send you any additional emails.

If instead you wish to continue receiving messages from us change your [subscription preferences](#) or:
